Highlights

Decorative light

With decorative lights you can enjoy the freedom of colors and set little accents in your rooms.

Up to 20 years lifetime

Modern technologies have a longer lifetime than standard bulbs. With 20 years lifetime, one lamp replaces 20 standard bulbs. So they save money and last longer, year after year. The lifetime is based on the average usage of 2,7 hrs per day or 1.000 hrs a year. This average is influenced by the usage during different seasons (dark winter vs light summer), the weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (short usage in bathroom vs long usage in living room).
